FOLSOM STRIKE PROLONGED

Warden Says Mush Was "Slightly Sour" But Generally Acceptable

FOLSOM PRISON, (UP)—Warden Clyde Plummer announced that 645 convicts refused to eat breakfast today and prolonged a hunger strike demonstration which began yesterday morning.

Ten leaders of the demonstration have been placed in solitary confinement, Plummer said, and A. R. O'Brien, chairman of the state prison board, is at the prison to observe the situation.

More than 800 of the prison's 2900 inmates rebelled yesterday against sour mush at breakfast. After beating on the tables with knives and forks, they were taken to the stone quarry for work but refused to do anything but mill around and shout.

All prisoners were locked in their cells to prevent disorder and the 800 turned down lunch and then dinner. Plummer said the men were like children "following their leader" and predicted they would soon decide to eat.

Plummer revealed also that many of the prisoners, apparently preparing for the strike on the 12th anniversary of the Thanksgiving Day riots which killed 1, had laid in a supply of food. This included chocolate bars, canned milk, sandwich meat and other articles bought from the commissary.

O'Brien said it was coincidental that the food demonstration started at the end of the second year of Warden Plummer's term. Just the day before the trouble started, 2700 of the convicts signed and presented the warden with an elaborate scroll congratulating him and thanking him for fine treatment.

Asked what the policy would be for tomorrow's Thanksgiving dinner, Plummer said the usual elaborate holiday dinner would be served to all who wanted to eat.

"We're just sitting tight and the boys can eat when they want to," Plummer added. "This thing will work itself out pretty soon. We are feeling around for more ringleaders in addition to the 10 we put in solitary confinement for about 30 days apiece."

The mush that was turned down yesterday was slightly sour but there was no complaint from the cooks, waiters, and all the convicts except those who went to the quar-

WATER HEARING CONTINUED

Georgetown Inquiry To Be Resumed January 10 At County Courthouse

Following the conclusion of the second successive day of taking testimony, Commissioner Carl C. Baker on Tuesday adjourned the railroad commission inquiry into the affairs of the Georgetown Divide Water Company, Ltd., until January 10.

On that date, at the courthouse in Placerville, the hearing will again be resumed.

The proceedings were instituted last Spring when hearings were held at Georgetown in the matter of the protest of the Georgetown Water Users against the type of service provided by the concern, and in the further matter of the railroad commission's own inquiry into the affairs of the district.

Following hearings held in May, further proceedings were suspended until Monday of this week, when the matter was taken up again in hearings in the court room at the county courthouse.

Among those who were called to give testimony during the two-day meeting were George Threlkel, orchardist of Cool; James A. Irving, president of the county Farm Bureau and of the Placerville Fruit Growers' Association; Sartor Francis of Georgetown; Supervisor William Breedlove, of Georgetown; Supervisor Carl Niegel, of Cool; John Arthur, chairman of the North Side Farm Center, of Cool; and Enno Sperinde, of Cool.

Counsel examined and cross-examined this group concerning certain facilities of the district and also concerning interruptions of water service and the probable loss to agriculture as a result of the interruptions complained of.

A number of residents of the area served by the water company's ditch were in Placerville during the two days of the hearing.

First among the things for which Roy Ogden, fire chief on Caldor district of Eldorado Forest is thankful, is that the sight of his right eye was not damaged in an accident on Monday.

Mr. Morehouse will discuss "Thanksgiving and Prosperity," taking as his text: "And Jesus took the loaves; and when he had given thanks he distributed to the disciples."

The Full Gospel Church at Camino has made plans for a potluck dinner and a service of thanks to mark the day.

Thanksgiving Dinner "Makin's" At Lowest Prices In Years

By FRED BAILEY

United Press Staff Correspondent

WASHINGTON, (UP)—An abundance of good things to eat are available for old-fashioned Thanksgiving dinners tomorrow — and at the lowest prices in years — and agriculture department survey showed today.

Turkeys are the most plentiful on record. Farmers raised 32,000,000 this year—enough to supply one for almost family table in the nation. Prices generally are the lowest in four years.

Retail prices will vary considerably, but generally will average between 27 and 34 cents a pound.

A survey by the department showed that all the things that go with a turkey dinner are the most plentiful and generally cheaper, than in several years. Cranberry production was about 40 per cent larger than last year and prices have been considerably lower.

The supply of California oranges is slightly less than a year ago, but the Florida crop is larger. The grapefruit crop is somewhat smaller than last year but still the second largest on record.

Total supplies of raisins and prunes are slightly smaller than in 1938, but because of reduced exports the quantities available for domestic use are larger than a year ago.

"Virginia" Club Speaker Topic

Mrs. Carl Baker, State Junior Leader, Attends Shakespeare Meeting

The literary section meeting of the Shakespeare Club, held Tuesday at the clubhouse, is reported as one of the most interesting in several weeks.

Mrs. Philip Volz was the day's speaker, telling of her recent visit in Virginia, and a distinguished visitor at the meeting was Mrs. Carl Baker, who for two years past has been chairman for junior clubwomen in the state federation.

The meeting, observing Constitution Day, opened with the salute to the flag after which all sang "The Star Spangled Banner." The reading of two poems called attention to Armistice Day and to Thanksgiving Day.

With this patriotic introduction the club took up the topic for the day, "Virginia," and Mrs. M. P. Bennett spoke briefly concerning the features of Tangier Island, in Chesapeake Bay.

Many of those in attendance had brought with them their copies of the National Geographic Society magazine for September, which contained an article about Chesapeake Bay and environs.

With this text, all were able to gain a greater appreciation of Mrs. Bennett's remarks.

Mrs. Volz visited in Virginia within recent weeks during the course of a vacation trip east with her sisters, and spoke with particular reference to the many historic shrines visited in the Old Dominion and told of seeing one house which had been hit by a cannon ball during the Revolutionary War, and which still stands with the cannon ball imbedded in the house.

She spoke of her visit to the Arlington National Cemetery and to other historic shrines in the vicinity and introduced into her remarks a number of amusing anecdotes concerning experiences on her trip which made her talk not only instructive but entertaining as well.

Sports Parade

By HENRY McLEMORE

NEW YORK (UP)—If they haven't run out of Nobel prizes by this time we would like to urge that one be given to Mr. Harry (Handlebars) Mendel for what is surely the most humanitarian act of the year.

Out of the kindness of his heart, which must throb like a hangover head for all mankind, Mr. Mendel has created the five-day six-day bicycle race. It began in Madison Square Garden Monday night, and while it is being advertised as a six-day race it will actually last but five.

Should Mr. Mendel be given a

prize there is the chance that the recognition of his services would spur him to even greater deeds. — Who knows but what next year he would promote a four-day six-day race? And the year after that a three-day six-day race? And then— Ah! How sweet to even dream of it—he might continue reducing the event until nothing would be left but a one-second six-day race.

A one-second six-day race would be ideal. It would be a money-making thing, too. We know thousands of persons who would pay their money to see it if they knew it would end almost instantaneously. The one thing that prevented six-day bike racing from sweeping the country is that its name was on the level. As a patriot we would be the last to say that this country hasn't

as many gluttons for punishment as any other nation. But no nation has enough of that breed to support a sport that starts on a Sunday and can't be stopped, even by the police, until the following Saturday.

Now that Promoter Mendel has taken the first step in shortening sports events that take up too much time, we hope the operators of other such events will follow his lead.

That track event, the marathon, could be reduced by 15 to 20 miles without hurting any feelings, unless you count the feelings of marathon runners themselves, and we don't. There is nothing much duller than the first three hours of a marathon, as the hardy oafs wear out their feet and the patience of the folk waiting for them at the finish line. The cross-country run could stand a little reducing, too. Start the fellows behind a big tree around a bend in the road, throw a bucket of water over them to stimulate weariness, and let 'em run for it.

Something could be cut off that 500-mile race at Indianapolis without doing any damage. Most of the action is packed in the last 100 miles or so, so why make the drivers and the spectators suffer an extra 400 miles?

Yacht racing, of course, we'd leave alone. In fact, yachts don't race far enough. Our idea of the perfect yacht race would be one that took the boats around the world 17 times, with the finish in a permanently ice-locked harbor in Little America, or smack dab in the middle of the Sargasso Sea.

Neat fitted jacket.

By VERA WINSTON

THE SNUG fur jacket divides popularity with the chubbe, as both have definite positions in the sartorial scheme of things. Here is Persian lamb fashioned into a neat fitted jacket which may be worn either with a skirt or a dress. The red skirt shown has a zipper at the waist, attached under the lining of the jacket to make a complete coat. The jacket is double-breasted with silk braid frog fastenings. It has a small rolled collar and straight slim sleeves with puffed shoulders, and the costume is finished with a large square Persian lamb muff.

WITH APOLOGIES TO THE FAMOUS "AD"

WHAT'S WHAT AT A GLANCE
WASHINGTON - WORLDBy CHARLES P. STEWART
Central Press Columnist

"WHEN," says Senator Henrik Shipstead of Minnesota, "congress passed our present law, authorizing the state department to con-

Senator Shipstead

clude reciprocal trading bargains with foreign countries, it was represented that these dickers would enable us to swap off our various surpluses for other stuff that we, in the United States, haven't enough of, or maybe not any.

Now, how's the system working out in practice?

The senator was referring especially to the scheme's application to agriculture, Minnesota being notably a farm state. He was referring super-especially to dairy products, since they're particularly conspicuous in his commonwealth's output. He also was dwelling with much emphasis upon our pending deal with Argentina.

"Because," he said, "Argentina is almost exclusively an agricultural and pastoral realm, with crops and animals and dairy edibles practically identical with our own."

"What's bound to follow if we encourage these alien industries to come in and compete with us in our home markets?"

Imported Cattle

It isn't proposed to admit Argentine cattle. It's well established, though denied by the Argentines, that they are diseased, and there's a sanitary embargo against them. But the "critters" are shipped in from Canada. They're redundant on this side of the border already, asserts Senator Shipstead.

"For two or three generations," he points out, "the American farmer has taken it for granted that the fertility of his land was eternal. He's beginning to find out that he was mistaken—that the fertility which he took out in the form of grain must be restored in

the form of humus, phosphate, potassium and nitrates. The manure from his barns serves this purpose. Destroy or reduce the dairy industry and you destroy the fertility of our fields."

The senator seems a bit jealous of the development of Dixie's dairying. Government policy there, as well as in the northland, has been to take as many acres as possible out of cotton production, thereby stimulating milk and its by-products. He remarks that such costs are lower in the south than farther north, giving the southerners an advantage.

Not that he wants to discriminate internally, but he does draw the line on international competition.

He indorses Pan-American neighborliness, but only in reasonable moderation.

Overseas Purchases

Moreover, he suggests, "We've repealed our embargo law."

"The Allies will want huge quantities of our war supplies. That steadily will boost prices of our manufactured goods. But the Allies already are pretty well stocked up with our farm and dairy junk. Consequently our manufacturers' and their employees' prices and wages will skyrocket, but agriculture's figures will stay stationary, for quite awhile anyway."

Of course, this will sting agriculture and dairying.

"Much," remarks Senator Shipstead, "has been made of the fact that the farm-mortgage debt has been reduced by \$2,400,000,000. But how? It's been reduced by foreclosures on farm mortgages. When a farm mortgage is foreclosed and the farmer is taken out from the land, the debt is wiped out. That's how farm-mortgage indebtedness has been reduced."

According to Senator Shipstead our number of independent farmers has been cut by about 30 per cent since the beginning of the last war. Today 30 per cent, who used to be independent, are tenants.

It's interesting. "Doc" Shipstead, who used to be an ordinary dentist in Minneapolis, is a foremost authority. At this writing he's nearly an independent party in congress.

COOL NOTES

The recent dance in behalf of the Pilot Hill and Cool cemetery was a great success and netted \$191.21 for the project. Many, of course, bought tickets and did not attend the dance. The committee wishes to thank all for their support and makes special mention of their gratitude to Alfred Brady for his activity in behalf of the ticket sale; the Dick Nance, for his work on the ticket sale and for donating the hall; Frank Coster, who has given the land for the cemetery; those who assisted in any way in connection with the supper served at the dance, and all others who in any way helped in making the event a success.

There will be a meeting of all interested persons at the cemetery at 10 a. m. Sunday to consider the

disbursal of the fund. It is planned to repair the present fence and to build several yards of new fence, as well as remove brush, supply markers, etc.

THANKSGIVING for the Past

HOPEFULNESS for the Future

Since the Pilgrims at Plymouth Rock set apart a day after their first harvest, Thanksgiving has been an American institution. As a day of family feasting and pleasure, it has no equal on our calendar. But Thanksgiving has a deeper meaning to us, too. It is the day which we have specifically set aside to give thanks to the Almighty for the benefits received during the past year, and on which we express the hopefulness that the next year will bring us our needs and that "peace will reign on earth."

HOW IT BEGAN

By Paul E. Berdanier

THE MOTHER OF PRESIDENTS

THIS PHASE WAS APPLIED TO VIRGINIA BECAUSE THAT STATE WAS THE BIRTHPLACE OF EIGHT UNITED STATES PRESIDENTS—WASHINGTON, JEFFERSON, MADISON, MONROE, HARRISON, TYLER, TAYLOR AND WILSON.

CREEK INDIANS
BECAUSE THERE WERE MANY CREEKS RUNNING THROUGH THE LANDS OF THE INDIANS IN MISSISSIPPI, ALABAMA, GEORGIA AND FLORIDA, THEY WERE FIRST KNOWN TO THE ENGLISH AS "MUSCOGEE", FROM ALGONQUIN "MASHKOKI" ("CREEKS") LATER THE SHORTER NAME "CREEKS" WAS ADOPTED.

CHRISTIAN SCIENCE SERVICE

Thanksgiving Day, Nov. 23, 1939
"Thanksgiving" will be the subject of the Lesson-Sermon Thanksgiving Day, November 23, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.
The Golden Text will be: "Rejoice evermore. Pray without ceasing. In every thing give thanks: for this is the will of God in Christ Jesus concerning you" (1 Thess. 5: 16-18).
Other Bible citations will include: "O give thanks unto the Lord; call upon his name; make known his deeds among the people. Sing unto him, sing psalms unto him; talk ye of all his wondrous works" (Ps. 105: 1, 2).
The Lesson-Sermon also will include the following passage from the Christian Science textbook, Science and Health with Key to the Scriptures by Mary Baker Eddy: "Are we really grateful for the good already received? Then we shall avail ourselves of the blessings we have, and thus be fitted to receive more. Gratitude is much more than a verbal expression of thanks. Action expresses more gratitude than speech" (p. 3).

BRITAIN MUM ON REPORT OF NEW "SUB" RAID IN FIRTH OF FORTH

NEW YORK, (UP)—The New York Times said today that it had "private advices" that a German submarine had slipped into the British naval base on the Firth of Forth and attacked the new 10,000-ton cruiser Belfast.
The Times said the extent of the damage was not known. The submarine escaped, it said.
The United Press New York bureau asked the United Press London bureau to obtain Great Britain's reaction to the New York Times dispatch. The London bureau cabled: "Unable reply." It, like all news gathering agencies within Great Britain, is permitted to send outside Great Britain only the news that has been approved by the official censor.

YOUNG HUSBAND'S WILL LEAVE \$1 TO HIS WIFE

LOS ANGELES, (UP)—The will of the late William Louis Chamberlain, Jr., who died last Sept. 22 in Portland, Ore., at the age of 32, was filed for probate today.
One paragraph read:
"I first request that my present legal wife, Carmen Chamberlain, be left the sum of \$1. By this request, I hope she will recall the eight years of hell on earth she had made me, and my dying hope is that this dollar will melt in her hands. Shakespeare might be able to tame a shrew but I can't."
